

# Design, Supply & Installation throughout the UK

London: 01753 610530 Manchester: 0161 737 5654 Glasgow 0141 522 6366

## CREDENTIALS

ACI has a network of offices, based in Glasgow, Manchester and London which enables ACI to offer true UK-wide coverage

At ACI no job is ever too small or too large... With decades of experience we have worked within the most difficult and unique environments and have never failed to come up with a proposal to fit our clients' needs. ACI is a solid choice for delivering effective, full-service solutions.

ACI are aligned with the industries leading manufacturers and have gained the relevant accreditation's in order to provide the following services; -

- Structured Cabling Systems – Category 5e/Category 6
- Fibre Optic Cabling Systems – single and multi mode (hard wired & blown fibre)
- Voice Cabling Systems
- Wireless solutions
- Intelligent Patching Solutions
- Network Monitoring Equipment – environmental monitoring
- Networked CCTV – IP Cameras
- Electrical Installations – NICEIC approved

Every member of our team is employed directly by ACI, offering clients continuity of personnel throughout the duration of contracts, and also providing single points of contact within our organisation where required by clients.

ACI's considerable experience, flexibility and innovative solutions for installations has led ACI to become involved in a varied spectrum of projects of all sizes and complexities in all market sectors including; -

- Education
- Call Centres
- Local Authorities
- Retail
- Manufacturing
- Healthcare
- Commercial Offices
- Small Works - Moves and changes

ACI is continuing a long tradition of excellence in servicing our customers. Our business philosophy is simple; -

- Treat each customer as our only customer
- Provide the best service possible at a reasonable price
- No job is finished until our customers are completely satisfied.
- Quality of service is the company's number one priority
